

**American Water Resources Association
2015 SUMMER SPECIALTY CONFERENCE
Climate Change Adaptation
June 15 - 17, 2015
New Orleans, LA**

Wednesday, June 17

8:30 AM – 10:00 AM

SESSION 15: Panel - North Atlantic Coast Comprehensive Study: Outcomes and Applications

**Moderator - Joe Vietri,
USACE North Atlantic Division, New York, NY**

Panelists

David Leach, USACE North Atlantic Division, New York, NY

Roselle Henn, USACE National Planning Ctr. for Coastal Storm Risk Management, Brooklyn, NY

Naomi Fraenkel, North Atlantic Division, New York, NY

The recently completed North Atlantic Coast Comprehensive Study can be utilized immediately by a diverse set of regional stakeholders, and will also be utilized in the General Re-evaluation Reports and Investigations being completed as part of the Corps Sandy Program. The Coastal Storm Risk Management Framework and associated technical products and tools are designed to help local communities better understand changing flood risks associated with climate change and the associated tools to help those communities better prepare for future flood risks. This panel will discuss these outcomes and also explore options for further application.
